	at Gdansk, Polish authorities maintained a 24-hour uniformed and armed	d guard	
	at the gangway, who checked the passport of each person going ashore. Armed boats, frequently observed operating in the area		
	gave the impression that one patrol boat was ass		
	to each merchant ship in port.	50X1	
5.	the east quay of Gorniczy Basin, whis appeared to be in good condition. Coal was loaded by traveling gantry type	cranes	
	canching of servicing the entire length of the three thousand foot quay. Vessels		
	awaiting to be loaded were moored to the western quay or Gorniczy Basin. The harbon office a large building is located at the southern end of Gorniczy	Basin.	
	Because of the limited denth of water approximately 30 feet. in the Basin,	Cella-	
	ful loading is essential to prevent a ship from grounding, and many ships of only a partial cargo at Gdansk and top off at Gdynia. Seven days were neces	Bary	
	to load because the Polish laborers were constantly being i	50X1	
	from one ship to another.	50X1
